Notes: IC-202P (Design Practicum) shows "NO SLOT" on the course-selection page — it has not been assigned a lecture time yet, so it isn't placed on the grid; check with your Design Practicum instructor / Faculty Advisor for its timing. IC-272 (Machine Learning) may also have an additional PC-lab session (5:30-8:30 PM on a weekday, room A10/A11/A18 PC Lab) depending on your batch — confirm the exact day with Dr. Indu Joshi. EE-212 (Digital System Design) is a 4-credit course but only shows 3 weekly lecture slots (Slot G) on this grid — that's light for 4 credits, so there may be an associated lab or tutorial not yet reflected in your selection; worth checking with Dr. Srinivasu Bodapati. Room A17-1A is shared across several of your DC lectures at different times, which is normal — it's simply the department's default EE lecture hall for your slot set.
